 [linkedin.com/in/deepika-b-r-9b2207329](https://www.linkedin.com/in/deepika-b-r-9b2207329) |  github.com/DEEPIKA0620

Bachelor of Technology (Information Technology) student with hands-on experience in Python, data cleaning, exploratory data analysis (EDA), machine learning, and NLP. Completed multiple data science internships and projects involving data preprocessing, visualization, and predictive modeling. Seeking an entry-level Data Analyst or Data Science role to apply analytical and problem-solving skills in real-world data-driven environment

Technical Skills:

- **Languages:** Python - **Libraries:** Pandas, NumPy, Matplotlib, Seaborn - **Machine Learning:** Logistic Regression, Classification, NLP, TF-IDF - **Data Skills:** Data Cleaning, EDA, Data Visualization - **Tools:** GitHub, Jupyter Notebook

Soft Skills:

Teamwork, Communication, Problem Solving, Analytical Thinking, Logical Reasoning

Work Experience

Python Development Intern | *Cognifyz Technologies* | Dec 2025 – Jan 2026

- Developed and optimized Python programs using core concepts such as functions, loops, and data structures, improving code efficiency and readability.

Data Science Intern | *Prodigy Infotech* | Jul 2025 – Aug 2025

- Worked on data preprocessing, EDA, machine learning, and NLP tasks using Python and Pandas
- Built classification models and performed sentiment analysis using TF-IDF and Logistic Regression.

Data Analyst Intern | *Future Intern* | Jun 2025 – Jul 2025

- Performed data cleaning, preprocessing, and exploratory data analysis using Python, Pandas, and NumPy, reducing processing time by 80%.
- Created data visualizations using Matplotlib and Seaborn to support data-driven insights.

Projects

Twitter Sentiment Analysis (NLP)

Built a sentiment classification model using NLP techniques, TF-IDF, and Logistic Regression to analysed social media text data.

Bank Marketing Classification

Developed a machine learning model to predict customer subscription behaviour using structured banking data and Logistic Regression.

House Price Data Analysis

Performed data cleaning and exploratory data analysis to identify key factors influencing housing prices using visualization techniques.

Census Income Exploratory Data Analysis

Analysed demographic and income patterns through data preprocessing and visualization to extract meaningful insights.

Education

Bachelor of Technology in Information Technology

Agni College of Technology, Chennai | Expected Graduation: Sep 2028

CGPA: 7.65

Higher Secondary Education (HSC)

Bentinck Higher Secondary School | 2017 – 2024
